About This Game

RECHARGE COMPLETE is a small game I am making in GODOT engine, as of this writing it has been in development for three months!

It is a third/first person shooter with an emphasis on action, mobility and energy management. You play as **RECHARGE**, a hard-strutting jet-packing android enhanced with anti-gravity technology who was created to save humanity from job-stealing robots!

As **RECHARGE** you will need to :

- Acquire new weaponry along your journey

-
- Disable devious installations in the remote wilderness
 - Sabotage enemy factories

and *most importantly*

- Take back control of the newly completed space elevator!

However...

Can you defeat the evil bots and fulfill your destiny without running out of power?

Jet-packing, boosting, surviving enemy attacks and completing maps requires energy. You can recharge this energy by picking up precious batteries or killing enemies and taking theirs! You can also recharge with magnetic skiing, a method of boosting across terrain which only works on the ground but recharges energy instead of expending it.

Blast enemies with homing missiles, lasers and EMP grenades!
Jet pack, boost and skii your way through peril.
Be the robohero you were made to be! **RECHARGE COMPLETE!**

Title: RECHARGE COMPLETE
Genre: Action, Adventure, Indie, Early Access
Developer:
rechargecomplete
Publisher:

English

The interface displays five mission cards against a starry space background with a nebula. Each card features a circular image of a celestial body and a status indicator. Below each card, the minimum time and step counts are listed.

Card Index	Status	最少用时 (Min Time)	最少步骤 (Min Steps)
1	已解锁 (Unlocked)	162	142
2	已解锁 (Unlocked)	0	0
3	未解锁 (Locked)	0	0
4	未解锁 (Locked)	0	0
5	未解锁 (Locked)	0	0

A navigation arrow icon is located in the bottom right corner of the interface.
