steinzeitbengel bleisch sebastian bleisch steinzeitbengel yes this is what i found and even in the hard pack!LATEST NEWS Chase Atlantic pulls out of the race against ONEX February 17, 2015 by George Karlins The launch event for the Chase Atlantic team's new Volvo XC90 T5 has been cancelled, according to RaceTrackMagazine.net. Chase Atlantic, who planned to run the Volvo in next month's NASCAR Whelen Modified Tour in their brand new XC90, will withdraw after the team's driver John Salemi was involved in a multi-car crash during Friday's qualifying at South Boston Motorsports Park. Salemi and his Andretti Autosport teammate, Ryan Preece, were following a group of cars led by the #66 car of Adam Talbott. Salemi was leading the race on the first lap when Preece took a turn too fast and hit the back of Salemi. The crash collected several other cars, including the #85 of Dylan Lukas and the #15 of Donnie Neal. Lukas and Neal were both transported to Brockton Hospital with non-life threatening injuries. Salemi suffered a broken clavicle and laceration to the back of his head. The race was called at the time of the wreck and Salemi, who would have to make an additional \$3,000 donation to the New England Rehabilitation Center, was replaced by Frank Bulli. Bulli had made a two-car qualifying effort in a Toyota Tundra. "He was doing a great job," said team owner Charles O'Donnell. "It's a shame what happened and I'm sorry for the kids." This has been a bad start to a good start to the year for the team and race track. The XC90 was being prepared for its debut at Texas Motor Speedway last month when rain forced the team to return home early. When the rain came down to Bristol Motor Speedway, the team's sponsor, Gillette, was forced to pull out as well. This offseason, the team and race track have made significant changes to make it a better place for drivers and fans. The new race track renovations are almost complete and should improve the racing by at least 30 percent

What is the best way to plot a graph using Boost graph library? I have a graph with a set of values that I want to plot in a graph. Below is my attempt of using the Boost library.

```
#include <boost/graph/adjacency_list.hpp>
using namespace boost;

struct v_t { int temp; };
struct My_graph : public
adjacency_list<edge_descriptor, v_t, listS, edge_descriptor>
{
    My_graph() {
        add_edge(v_t(0), v_t(1), listS().edge(0,1));
        add_edge(v_t(1), v_t(2), listS().edge(0,2));
        add_edge(v_t(1), v_t(3), listS().edge(0,3));
        add_edge(v_t(1), v_t(4), listS().edge(0,4));
        add_edge(v_t(2), v_t(3), listS().edge(0,3));
        add_edge(v_t(2), v_t(4),
```

```
        boost::listS().edge(0,4));  
    boost::add_edge(v_t(2), v_t(6),  
boost::listS().edge(0,6)); } }; int main() {  
    My_graph G; for (int i = 0; i
```
